

MINISTRY PARTNER DEVELOPMENT FOR SEND NETWORK CHURCH PLANTERS

Are you a newly endorsed Send Network church planter and want to learn more about developing ministry partners for you, your family, and your ministry? Below are a few helpful things to know:

- All Send Network church planters are invited, upon endorsement, to begin the process of raising support through NAMB's MSC program. You will receive a link in your endorsement email for you to access online training and learn more about how to use this program.
- You must have a sponsoring entity (in many cases, this is the Sending Church) that agrees in writing to work with you and to receive MSC funds from NAMB on a monthly basis.
- It is the responsibility of the church planter to identify and communicate with a sponsoring entity.
- It is critical that the church planter communicate to the potential sponsoring church the responsibilities involved. Here is a link providing the necessary information: namb.net/msc.
- The Send Network church planter and sponsoring entity must work together to determine the church planter's employment status and any potential tax implications. We strongly encourage the church planter and the Sending Church or sponsoring entity to seek advice from a qualified tax professional.
- To learn more about the benefits and requirements of our platform for ministry partner development and the MSC program, click here: namb.net/msc.
- If you have additional questions, reach out to help@namb.net or msc@namb.net.
